

I WISH TO GO... TO DISNEY WORLD!

JESSE, 9

You would have never guessed that 9 year-old Jesse had never flown before when he boarded a plane set off for a magical Disney vacation. "Jesse acted like he was a frequent flyer!" his mother exclaimed. He was clearly excited to begin his trip of a lifetime thanks to the Make-A-Wish Foundation who was able to see that it happened. Jesse and his family stayed in a villa in the Give Kids the World Village. From there they ventured to the Magic Kingdom, Sea World and Universal Studios. Jesse's favorite part of the trip was by far Universal Studios, where he was given the chance to meet and pose for pictures with all of his favorite superheroes. He was especially excited to meet his all-time favorite hero, Captain America. Not only did he meet his idol, but made some new friends as well. His mother said later that Jesse loved the animated Country Bears show and met a few more of his favorites including Spiderman, Mickey Mouse and Barney. When it came time to experience the rides that Disney has to offer, Jesse's highlight of the day was Space Mountain. He was even given the chance to ride twice in a row! His mother describes the trip as a "wonderful experience. It was something I got to do with him I probably would have never gotten to do otherwise."
