

I WISH TO HAVE...

A PINK PRINCESS ROOM!

MARITZA, 4

Many young girls dream of living like a princess, but very few have a chance to live among them. Four year-old Maritza has spent countless hours learning about fairytale life from her favorite Disney princesses. Thanks to the Make-A-Wish Foundation® of Central and Western North Carolina, sweet, shy and beautiful Maritza will now wake -up every morning to the friendly and enchanting faces of Ariel, Belle, Cinderella, Snow White, and Jasmine.

Last March, Maritza and her family returned home from an afternoon outing to Chuck E. Cheese to a room fit for a princess. While Maritza's family distracted her with pizza, prizes and games, her wish granters were busy painting, assembling, and decorating the pink, princess-themed room. Maritza's eyes lit up with gratitude and amazement when she entered her newly transformed room to find an antique-white, princess daybed and dresser embellished with crystal bedding and scroll detailing. Once inside, Maritza could not stop smiling. From one corner to the other, the room was filled with everything a princess could need including a pink princess television with dvd player, the Disney Princess movie collection, and an assortment of princess costumes. Maritza could not wait to play dress up and watch all the new movies with her little sister.

Special thanks goes out to Gray Riley and his team at Stencil Painting and Drywall for the donations of paint and labor. Thanks also to Room To Go Kids for the furniture and accessories they were able to donate. The pink princess room you helped create will give Maritza an imaginative place to learn, play, and grow.
