

I WISH TO MEET...

PRESIDENT BUSH!

MATTHEW, 11

Matthew, an 11 year old from Avery County, has Cystic Fibrosis. Although he is sick, Matthew loves to play basketball and soccer. He also enjoys watching fictional movies and playing on the computer. Matthew loves science and history. A huge fan of politics, Matthew knew exactly what to wish for when a Make-A-Wish volunteer visited his home. He wanted to go to our national's capital to meet President Bush. Matthew was hoping to tell the President what he thought would help America.

In September 2006, Matthew shook President Bush's hand in the Oval Office. He and his family got their pictures taken with the President and toured the White House. His trip was not just limited to meeting the President of the United States. He also toured the Capitol Building and National Air and Space Museum.

Matthew had a very magical time on his wish. Thank you for helping make other children's wishes come true!
