

I WISH TO GO... ON AN ALASKAN CRUISE!

SARAH,

When Sarah began thinking about what she wanted her wish to be, she instantly knew she wanted to go on a cruise. When her doctor advised her to stay out of the sun, she chose an Alaskan cruise. Sarah describes what turned out to be “the trip of a lifetime.” From beginning to end, Sarah was treated like a queen. She was overjoyed upon learning that the boat would be making stops at various! She was able to experience Alaskan wildlife such as whale-watching, seals, eagles and more. Her mother described Sarah’s excitement from an excursion to a dog sled camp, where she was able to cuddle the puppies and be pulled on the sled! An equally thrilling activity planned for the family was the chance to experience the acclaimed seventy-five mile long Hubbard Glacier. Standing 300 feet tall, the family described seeing the glacier as an amazing, once-in-a-lifetime opportunity. Overall, the trip proved to be a refreshing and remarkable change from the humid North Carolina climate. The Alaskan cruise will be a trip Sarah and her family will not soon forget.
